HAVE YOU BEEN PRESCRIBED AN ORAL ONCOLOGY MEDICATION TO TREAT YOUR CANCER?

Your state has passed a law that could make your medication more affordable.

Oral Oncology Parity laws can assist you in accessing the innovative, oral therapies that your physician prescribes.

FIND OUT IF YOUR STATE’S ORAL ONCOLOGY PARITY LAW CAN HELP YOU!

Speak to your physician or your office’s financial services staff about the law—they can likely help you determine if this law will assist you.

Contact your health insurance company to inquire as to whether you would benefit from the protections offered under these laws.

Learn more about Oral Oncology Parity laws by visiting the State Patients Equal Access Coalition’s website at www.speac.myeloma.org. You can access state-specific Fact Sheets on your state law using the interactive map.

If you believe your health insurance company is not complying with this law, you may consider filing a complaint with your state’s Department of Insurance.

If you still have questions about these laws, you may contact one of the following organizations directly:

International Myeloma Foundation
myeloma.org
800-452-2873

Community Oncology

301-984-9496

Please Note: State laws impact only state-regulated health insurance plans. They do not impact Medicare, Medicaid plans usually cover oral therapies with nominal cost to cancer patients. Certain health plans covered under the Federal Employee Retirement Income Security Act (ERISA) are also exempt from state law.
